tpsatish95
satishpalaniappan

Interests

Machine Learning, Deep Learning, Computer Vision, Natural Language Processing, Algorithm Design, Reinforcement Learning.

Educational Background

2012-2016 **Sri Sivasubramaniya Nadar College of Engineering (SSN CE)**, *Anna University*,
B.E. Computer Science and Engineering, **CGPA**: 8.56/10.

2010-2012 **TVS Matriculation Higher Secondary School (TVS M HSS)**,
12th Grade (Higher Secondary Certificate), **Score**: 98%.

Academic Research Experience

Dec,2015 - Present **Research Assistant**, INSTITUTE OF MATHEMATICAL SCIENCES, CHENNAI.
Optical Character Recognition on Indus Scripts [link] [paper]
under Prof. Ronojoy Adhikari, Department of Physics
- To recognize Indus script symbols from scans and photographs of ancient Harappan civilization artifacts.
- **Techniques:** Convolutional Neural Networks (CNN), GoogLeNet, Selective Search, and Transfer Learning.
- **Media Coverage:** *The Hindu*, *The Verge* (small piece), *Times of India*, and *SBS Radio - Australia*.

Dec,2014 **Research Intern**, CARNEGIE MELLON UNIVERSITY (IPTSE WINTER SCHOOL).
Text Based Emotion Recognition System [link]
under Prof. Bhiksha Raj and Prof. Rita Singh, Department of Computer Science
- Classify any textual data, using histograms of word2vec word/phrase clusters, into the 7 basic emotions.
- **Techniques:** Word2Vec, Latent Dirichlet Allocation (LDA), K-means, Support Vector Machines (SVM), Probabilistic N-Gram models, Multinomial Naive Bayes.

Industry Research Experience

Jun,2016 - Present **Software Engineer**, QUBE CINEMA TECHNOLOGIES, INDIA.
under Rajesh Ramachandran, Chief Technology Officer & President
- **Projects:**
  - Scalable **viewer-demographics mining engine**, that can extract information such as count, age, gender, and emotions of the movie watchers, from low-light images of a theatre's auditorium.
  - Real-time, adaptive, partner **selection algorithm** for businesses.
  - **Intelligent bot for syncing theatre databases** around the globe into a unified format.
- **Techniques and Tools:** CNN with master-child model & feedback-based learning, Camera Calibration, Amazon Web Services, Flask+uWSGI+Nginx servers.
- **Algorithms:** Knapsack Problem, Minimum Cost Flow (Transportation) Problem, Pruned Search Trees, Recursive and Linked Interval Trees.

May,2015 - Jul,2015 **Data Scientist - Intern**, SERENDIO INC., INDIA.
under Ravi Condamoor, Chief Executive Officer
- **Projects:**
  - Universal multi-domain **sentiment scorer** for text [link].
  - **Topic composition modeling** using hierarchical K-Means and semantic word clusters [link].
  - **Internet slang text parser** [link].
- **Techniques and Tools:** Gensim, Tf-idf features, Bagging and Boosting, CMU ARK's Twokenize, Rake - Keyword Extractor, Web Crawlers, etc.
- Serendio Inc.'s **campus ambassador** at SSN CE.

Research Papers, Patents and Theses

Feb,2017 Paper titled, "**Deep Learning the Indus Script**", submitted to PLoS ONE, arXiv:1702.00523v1.

Apr,2016 Undergraduate thesis titled, "**Automated Scenario Description for Images**", Anna University. [link]

Apr,2015 Paper titled, "**Home Automation Systems - A Study**", International Journal of Computer Applications (IJCA), Vol. 116 - No.11, Reference ID: pxc3902601. [link]
- **Best paper award** at the SSN UG paper presentation event and has 13 citations [google scholar].

Oct,2015 Patent filed, titled, "**Universally Compatible and Accessible, Software Controlled, Expandable Home Automation System, for Energy Conservation and the Differently-Abled**", Reference ID: 5729/CHE/2015. [video report], [patent search link].

Apr,2015 Paper titled, "**Automated Meter Reading System - A Study**", International Journal of Computer Applications (IJCA), Vol. 116 - No.18, Reference ID: pxc3902783. [link]

Dec,2014 Poster presented, titled, "**Text Based Emotion Recognition System**", CMU-IPTSE Winter School, at NITK Surathkal. [link]

Projects

Jun,2015 - Apr,2016 **Automated Scenario Description for Images**, *Undergraduate thesis*, ANNA UNIVERSITY.
under Prof. Milton R.S., Department of Computer Science, SSN CE, [link], [thesis].
- Harnessed object identification and scene classification techniques to automatically generate natural language descriptions of images.

Sep,2014 - Jun,2015 **Software Controlled Appliances for Energy Conservation and Differently Abled people**, *Funded research project*, SSN INNOVATION CENTER, [link].
- Built a Raspberry Pi powered, adaptive and modular system to provide planet-wide access to electronic appliances using software interfaces (mobile apps) via the Internet cloud. Demonstrating Internet of Things.

Mar,2015 **Intelligent Food Resources Monitoring & Management system (PingMyFood - The Food Network)**, *Startup venture*, SSN ENTREPRENEURSHIP DEVELOPMENT CELL, [link].
- Built a social network for sharing food, that collaboratively mitigates food resource wastage by routing the surplus food to food deficit regions and also allows anyone to share food with each other.
- Coupled with an intelligent, cuisine and chef based, topic modeling and quality rating system.

Feb,2015 - Dec,2015 **Automated Scoring of YouTube videos from Pairwise Comparisons and Metadata based on Degree of Funniness**, *Side project*, [link].
- Built a regression model, that scores YouTube videos based on their degree of funniness with just the non-video metadata such as title, description, and comments.
- Developed a heuristic for converting the pairwise comparisons into unified overall rankings across videos.

Sep,2015 **Market Segmentation based on Local Customer Activity**, *Business Analytics Hackathon*, SSN SCHOOL OF ADVANCED CAREER EDUCATION, [link].
- Developed a market segmentation algorithm by clustering human activity patterns tracked using smartphone data such as accelerometer & gyroscope readings.

Dec,2013 **Regional Transport Office (RTO) Management System**, *Software Development Engineer - Internship*, RAMCO SYSTEMS, INDIA, [link].
- Worked on building and managing fail-safe redundant database systems.
- Learned about Enterprise Resource Management (ERP) on cloud.

Awards and Achievements

- **Merit Scholarship (Full)** for Excellence in Academics, 1st Year, worth Rs.105,000, SSN CE.

- **Microsoft Research** certified, for proficiency in "Design and Analysis of Algorithms".

- **Top 4** in the state and **top 100** across the country, Aspirations 2020 programming contest, **Infosys**.

- **Young Achiever Award** for Excellence in Academics, Tractor And Farm Equipment Ltd., India.

- **Industry Mentor** at the **Smart India Hackathon** (world's largest hackathon), organized by the **Government of India**. (My team also won the 2nd **Runners-up** position (Dept. of Posts)).

- **Outstanding Student Organizer Award**, SSN ACM Student Chapter.
- All India Rank 456 in 14th **National Science Olympiad**.
- Rated as an **excellent programmer in "C"** by NIIT.

Talks

- Deep learning based OCR engine for the Indus script.
- Venues: **Indian Deep Learning Initiative** (IDLI) [slide deck] [video] [link], **ThoughtWorks Geek Night** [slide deck] [video] [link], **ChennaiPy** [link], **Anthill Inside 2017** [proposal].

- Pokemon World and Indus Valley Civilisation - The Analogy, *at Qube Cinema Technologies - Offsite 2017 slide deck [V1, V2].*

- ML from a CV and NLP perspective, *at Qube Cinema Technologies - Offsite 2016 [slide deck].*

- Python Hands-on, *Two-day workshop, at ACM Student Chapter, SSN CE [link].*

Open Source Contributions

Diskoveror **Text analytics package**.
- Developed the Topic Modeling and Sentiment Analysis modules, in Python. [link]
- Interfaced Python and Java code bases via Facebook's Thrift API. [link]

RealImage **Algorithm for territorial restriction of film distribution rights**, *Challenge 2016.*
- Implemented using hash maps, trees, and bit indexes with constant time lookup. [link]

Keras **Deep Learning library for Python**.
- Implemented random shear data augmentation technique in the CNN's training pipeline. [link]

Gensim **Topic modeling library for Python**.
- Ported the phrase vector representation technique of word2vec word vectors, from C to Python. [link]

Technical Skills

Languages Python, Java, C, C++, VB.Net, R

Libraries CAFFE, TENSORFLOW, KERAS, OPENCV, Scikit-Learn, NLTK

Others Linux, Android SDK, Git, LaTeX, Docker, Adobe Photoshop

Professional Affiliations

2014 - 2016 **Association for Computing Machinery (ACM)**, *Student Chapter*, SSN CE.
- Roles: **Chairman** (2015 to 2016), **Treasurer and Tech Lead** (2014 to 2015)

2014 - 2015 **Google Student Club (GSC)**, *Tech Lead*, SSN CE.

2015 - 2016 **Indian Society for Technical Education (ISTE)**, *Vice President, Student Chapter*, SSN CE.

2015 - 2016 **Placement Cell**, *Student Placement Coordinator, Computer Science Department*, SSN CE.

Standardized Tests

GRE Score: **324** / 340
- **Quantitative:** 169/170, **Verbal:** 155/170.

TOEFL Score: **116** / 120
- **Reading:** 29/30, **Listening:** 30/30, **Speaking:** 28/30, **Writing:** 29/30.

Massive Open Online Courses

Stanford	Machine Learning Prof. Andrew Ng Coursera	Natural Language Processing Prof. Daniel Jurafsky Coursera	CNN for Visual Recognition Dr. Andrej Karpathy CS231n
